AKAMPULIRA E LA SUA FAMIGLIA

Swabura is a 12 year old girl studying from Kireka primary school in primary five but once she receives support, she will join Luigi Giussani Primary school. Swabura goes to school but she is on and off due to unpaid school dues. Swabura is staying with her mother Sumaiah and two sisters in one room rented house in Nakawa one of the slums of Kampala city. Their house is rented but it is not plastered and it slightly adequate though needs some repair. Swabura's father abandoned his family for unknown reason leaving all the responsibilities of taking care of the family in the hands of Sumaiah. Sumaiah has a small petty business of selling locally half cakes to earn a living but what she earns is not enough to meet all the basic needs of the family and to send her children to school. Due to low income earned by this family, they survive only on one meal a day which affects the growth of the children.

IL VALORE DEL SOSTEGNO

The Distance Support is for Akampulira the only way to receive an education. Thanks to the support we will pay for her school fees so she can attend school regularly until the end of the primary school, after the ordinary level of secondary school and continue with the advanced one or a training course that enable her to find a decent job to maintain herself. She will be followed by social workers of "Meeting Point International" through regular visits at home and at school and she will be able to benefit from quality medical care when needed. To improve living conditions, we plan to encourage Sumaiah to join Village savings and loans association to save some income to boost her small petty business which could help the family to earn more income. We will encourage her to attend our weekly meeting where we will educate her about health and hygiene of her children.

CHI SE NE PRENDE CURA

Meeting Point International" (MPI) is a local Non-Governmental Organization, with which AVSI is working in the implementation of the "Distance Support Program". The office is located in Kitintale and the intervention area is extended to the slums of Naguru and Kireka. Rose Busingye is the coordinator; she is a Ugandan nurse and together with the social worker she is offering psycho-social support to families affected by HIV/AIDS, with special attention to orphans and women. Luigi Giussani Pre Primary and Primary School (LGPPS) was born from the experience the women gained in MPI. The school provides meals for all the children, to ensure an experience of welcoming and adequate conditions for the pupils' studies. The aim of the school, in fact, is to accompany each child during his journey to discover himself and the world, with a special care to the teachers' professional development, to improve their teaching methods and teacher-pupil relationship towards the desired quality level.

JUNIOR E LA SUA FAMIGLIA

Junior is living with his mother Esther in a two roomed owned house in Kiwatule one of the slums of Kampala. This house was left to them by Junior's father who abandoned his mother and married another woman. Junior completed primary seven last year 2018 and he is not at school because his mother earns low income to take Junior to the next level but if Junior receives support, he is to join senior one at Luigi Giussani High School. His mother sells charcoal on a small scale basis to earn some income to take care of the family but what she earns is not enough to meet all the basic needs of the family. Junior and his mother are HIV positive and they are taking drugs daily to be healthy and strong but sometimes Esther feels weak to go and participates in the daily income activities. We got in contact with Junior through his mother who is a client and a member of the women of Meeting Point International.

IL VALORE DEL SOSTEGNO

The Distance Support is for Junior the only way to receive an education. Thanks to the support we will pay for him school fees so she can attend school regularly until the end of the ordinary level of secondary school and continue with the advanced one or a training course that enable him to find a decent job to maintain himself. He will be followed by social workers of "Meeting Point International" through regular visits at home and at school and he will be able to benefit from quality medical care when needed. To improve living conditions, we plan to give Esther lesson on financial literacy and healthy sensitization. We shall also encourage Esther to save some income to be able to boost her business of selling charcoal which could help the family earn more income to meet basic needs.

For this reason they desired a school, that first of all is a home, where everyone, teachers and students, can discover that they are loved through their everyday work. The attention to individual student, the formation of qualified teachers and the participation of different national and international actors make this school special in the panoramas of Ugandan schools.

NAMPALA DAPHINE E LA SUA FAMIGLIA

Daphine is in primary five at Happy Days Primary school but she is to join Luigi Giussani Primary School once supported. She goes to school but she is on and off school due to unpaid school dues. Daphine is a paternal orphan whose father died due to an accident. All the responsibility of taking care of the family is upon Serena's mother and her husband did not leave her with anything to support the children. Daphine is staying with her mother Irene, five sisters and a brother in a double roomed house temporally given but made of local building materials in Kireka one of the slums of Kampala. Irene sells tomatoes on her veranda to the community to earn some income to take care of her family but what she earns is not enough to meet all the basic needs of the family. Her children are always chased from school to go back home due to unpaid school dues.

IL VALORE DEL SOSTEGNO

The Distance Support is for Daphine the only way to receive an education. Thanks to the support we will pay for her school fees so she can attend school regularly until the end of the primary school, after the ordinary level of secondary school and continue with the advanced one or a training course that enable her to find a decent job to maintain herself. She will be followed by social workers of "Meeting Point International" through regular visits at home and at school and she will be able to benefit from quality medical care when needed. To improve living conditions, we plan to give Irene lessons on financial literacy and also on backyard gardening to enable her plant her own vegetables. We shall also encourage Irene to save some income to be able to start up an IGA which could help the family earn more income.
